

FACTS

Sand Sculpting on the Beach

Day: Wednesday afternoon, July 26th
Time: Flexible, but we'll be set up by 2 p.m.
Location: North end of the Wild Dunes Beach

Let your imagination take over during the AESC Sand Sculpting event on the beach! Use your architectural skills and design a castle, or scrape away sand to reveal a sea monster. The choice is yours.

- We'll have an area on the north end of the Wild Dunes beach set aside for us... Follow the Boardwalk down to the beach and veer to the left.
- Lunch is on your own, but consider the Beachside Burgers & Bar overlooking the beach.
- A water station will be set up near our carving area.
- We will provide a variety sand tools – shovels, scoops, buckets, putty knives and spray bottles of water – to help with your sand carving adventure.
- Think of this as a “team sport.” Partner with other Club families and friends to construct your masterpiece.
- High tide is around 2:30... so we'll be starting close to the ocean.
- If you're one of those “Type A” personalities, here's a website with some good advice about technique: http://www.sandscapes.com/how_to/
- Keep your dermatology friends happy and bring plenty of sunscreen!!! And a hat... and a shirt. Just saying . . .
